JUDGE BUFFINGTON NAMED AS ARBITER

Will be Asked to Serve as Third Member of Pittsburg Railways Board

MESTREZAT DECLINES

Supreme Court Jurist Finds Himself Unable to Accept Place---Meeting Called

Undismayed at the refusal of Supreme Court Justice S. Leslie Mestrezat to serve on the board of arbiters to settle the wage scale controversy between the employes of the Pittsburg Railroad company and the company, efforts are now being m by the persons concerned to secure Judge Joseph M. Buffington, of Pittsburg, to act in that capacity. Judge Buffington's answer is anxiously awaited, and it is believed he can induced to serve as the third man on the board of arbitration. The two others are Congressman Stephen G. Porter for the employers and Attorney James C. Gray for the company.

Arrangements are being made by the employes of the company for an all night meeting to be held Thursday night of this week at Labor Temple in Pittsburg, at which time their grievances are to be aired and plans laid for presenting their side to the board of arbitration.

Vagrants Ply Trade

Monessen Infested Saturday With Tramps---Wearies Sell Pencils and Beg

Monessen Saturday was visited by many vagrants who were busy plying their trade. They walked into the places of business presenting cards, requesting their selected victims to purchase penny pencils for a nickle or some other bit of merchandise equally as worthless. In many cases they boldly requested cold cash, which really seemed to be the thing most sought. Many of them could not give any good explanation as to why they should be given money, but if refused they conducted themselves as injured martyrs.

EXEMPLIFICATION OF DEGREES BIG FEATURE

Knights of Columbus From Pittsburg District Gather by Hundreds at County Seat--Local Man Makes Address at Banquet

More than 1,100 Knights of Columbus asembled in Washington Sunday for the exemplification of the second and third degrees of the order. Eighty-nine candidates from the twenty-first Pennsylvania district were initiated into these degrees. The guests present were from: Charleroi council, Charleroi; Monongahela council, Pittsburg; Allegheny council, Pittsburg; Chartiers council, Crafton and from McKeesport; Wheeling, W. Va., and Martins Ferry, Ohio.

The exercises opened with the celebration of mass in the Catholic church of the Immaculate Conception and following this service the members of Washington council No. 1083 and the visiting knights marched to the parochial school building, where the exemplification work was conducted. This work was in charge of District Deputy Supreme Knight R. A. Walsh, of Crafton, national officers from New Haven, Conn., and the degree team of the Monongahela council of Pittsburg.

The day's exercises closed with a banquet, more than 1,000 men sitting at the table. The toastmaster was John E. Laughlin of Pittsburg. The visitors were welcomed to Washington by Patrick Yorke.

In response to the toast "Who Are We?" Thomas P. Sloan of Charleroi, delivered a rousing patriotic address, tracing history from the time of Columbus down to the present day and pledging himself and fellow knights to a loyal defense of the flag in every time of need.

Other toasts were responded to by the following men: A. J. McSwigan, state deputy of Pittsburg, "Our Order;" Attorney Marion H. Murphy of Pittsburg, "The Ladies;" P. J. McArdle of Pittsburg; "Catholic Citizenship;" Joseph A. Butler, president of the Pittsburg chapter, "Our Responsibility."

TAYLOR'S FATHER SHOWS UNCONCERN ABOUT HIS SON

"Jake never was quite right in his head."

That was the only explanation John Taylor of Coolspring, father of Jacob Taylor, of Mount Braddock, made when told that his son had confessed to the killing of little Florence Dove at North Braddock, Allegheny county last May 4.

John Taylor, who is a familiar figure in Fayette county as a peddler of herbs and roots, stopped in Uniontown when someone told him that his son had confessed to killing the little girl. He explained that "Jake" had been away from home for some time and admitted that he might have committed the crime.

He said, however, that his son had always been a harmless boy, but never was "quite right in his head." He said that when he was going to school, he admitted doing things that he had never done when questioned about them.

"His mother used to tell me I was making him a worse liar than he was by asking him if he did things that never happend just to hear him admit that he did," said Taylor. "Whether he killed the girl or not, if the detective got to sweating him, he would say he did."

The father did not appear at all anxious over the calamity which had befallen his son. He seemed more anxious over a threat he said Burgess Warman at Uniontown had made that unless one of his sons secured a license to peddle, he would have to stop selling herbs or be locked up. The man gave a long recital of his personal troubles which appeared to overshadow the trouble his son, Jacob is in. He appeared to be merely interested in his son's trouble, and when given a newsaper containing an account of his confession, said he would read it when he went home.

INJURED AT BRIDGE; ASKS FOR DAMAGES

William E. Derflinger and Lillian M. Derflinger of near Monongahela, his wife have filed a suit against the county of Washington to recover $5,000 damages, alleged due for personal injuries sustained by Mrs. Derflinger when she stepped into a hole on a sidewalk on the Monongahela bridge at Monogahela on June 25, 1912.

It is averred in the statement that Mrs. Derflinger while walking on the tridge slipped into the hole in the sidewalk, and that both legs were injured, her ribs fractured, that she suffered internal injuries and received a great nervous shock, all of which she alleges are permanent. She also states that at the time she was carying a small baby, which was thrown against the side of the bridge and its head cut.

It is alleged that the county was negligent in failing to repair the sidewalk, which it was known, it is claimed was in dangerous shape.

OBJECT TO HILLSIDE GARBAGE INCINERATION

Charleroi People Issue Complaints to Monessen Plan

IS AN ANNOYANCE HERE

Smoke and Fumes From "Furnace" Bothersome--Garbage Man Cleaning up Town

Following the visit of a state waterways inspector to Monessen and his subsequent demand for a general cleaning up of the garbage ... and of the garbage there, further complaints have been lodged, with Charleroi people as the complainers. The more recent complaints concern annoyance caused Charleroi people by the burning of Monessen's garbage on the hill at East Charleroi.

To date Monessen has no incinerating plant and the visit of the state inspector for that borough was occosioned by a controversy over dumping of garbage within the borough limits by Garbage Collector Carter. The trouble had been of long duration. It did not take long for the state inspector to tell Garbage Collector Carter to clean up and burn the garbag

When the commands to clean were issued garbage was fired on opposite hill from Charleroi, it claimed, and it semingly has been burning ever since. Smoke and fumes of the burning refuse, wafted to Charleroi first caused annoyance and then complaint. What may be the result of the latest complaints cannot be determined, only this, that hemmed in from all sides Monessen may yet be driven to the last resort of providing an incinerating plant.

OIL TANK FIRED BY LIGHTNING

Heavy Damage Wrought at Meadowlands Early Monday Morning

TOTAL LOSS IS $25,000

A bolt of lightning hit a 35,000 barrel steel oil tank at Meadowlands, just after midnight this morning. The tank contained 25,000 barrels of Kansas oil at the time, and was owned by the Southwest Pipeline Oil company, a subsidiary of the Standard Oil. The minute it was hit the great tank burst into a furnace of fire.

Field Superintendent Frank McCue and 50 men promptly started to fight the flames without much prospect of doing anything other than protecting the pump station and 50 houses belonging to the United Coal company. The oil destroyed was valued at $20,000 and the tank at $5,000. No one was injured.

CENSOR DEFINES PROPER LENGTH OF FILM KISS

Mrs. E. C. Niver, the woman member of the new state moving picture censorship board, according to a press dispatch from Philadelphia, has come to the conclusion that one yard is long enough for any kiss, after several weeks spent in passing upon thousands and thousands of yards of love drama films. Love scenes and historic romances, thrilling escapes and runaways, harrowing death bed repentances and wild elopments, the excess of poverty and the extreme of wealth, all pass in review before her.

Mrs. Niver views the films from the standpoint of adolescene. Will it harm the child? What effect will it have on the grown boy or girl? Will it stimulate interest in crime? Will it give wrong impressions? These are the questions Mrs. Niver asks herself as the film flashes by. The woman inspector has sat through yards and yards of kisses of every variety and her ultimatum, after waching an embrace which occupied five yards of film, was that four yards should be eliminated and that the young people should be torn from each other after 36 seconds of osculation.

A. Tener, Pres. S. A. Walton, Vice Pres. R. H. Bush, Cashier.

THEY SEE ALL THE SIGNS

Democratic leaders in Congress have finally realized that the policies of their party are hurtful to the country at large and they are urging President Wilson to allow congress to dispose of appropriation bills so that the members may return to their homes and give the country, its industries and business, a much needed rest.

Leader Underwood, of Alabama, who has been promoted from the lower house to the senate has been demanding with all his force and influence that an early date for final adjournment be fixed. Mr. Underwood is heartily seconded by Senator John Sharp Williams also from the south, and Senator O'Gorman, of New York. Other conservative Democrats have joined in urging the President to abandon his policies for the good of their party and the country, but their efforts have been in vain.

The Pennsylvania members of congress have been especially insistent upon the President. They have been hearing from their constituents back home and most of them have abandoned all hope of succeeding themselves.

With the Connellsville coke region, usually the last section in this state to feel the blight of depression, running at less than half capacity, all other industries in the state are compelled to lag far behind even what might be termed slow business.

It is little wonder, therefore, that the Democrats of Pennsylvania have abandoned all hope of public support and approval and are devoting themselves to squabbling over the loaves and fishes being reluctantly distributed from the Federal pie counter. Incidentally the distribution of the Federal pie has thrown the rank and file of the Democracy into a rage that is certain to materially help the harmonious Republicans this fall.

THE DEMAND FOR VEAL

"The demand for veal has increased rapidly, and not only are the surplus dairy calves slaughtered but thousands of beef calves as well, until a calf will now sell for from $8 to $12 when only two or three months old."

This quotation from Farmer's Bulletin 588 of the U. S. Department of Agriculture means that unless the farmer has unlimited cheap feeds it is usually more profitable to market the dairy or dual-purpose calves than to attempt to raise them, even though some of them might make good steers, says an exchange. While many deplore this heavy slaughter of calves, and legislation against it has been urged, the consumer's demand must be met.

While the number of cattle has decreased, the demand for meat has naturally grown until not only have the exports nearly ceased, but the packers that they may provide cheaper meat are now buying many cattle that were formerly fed. The farmers who formerly bought nearly finished cattle as feeders have been compelled to pay higher prices for such cattle or to take thinner animals.

The cattle-feeding business has changed greatly during recent years. Formerly steers from four to six years of age were fed in large numbers on commercial feed at yards near granaries or mills, or upon large farms where only the roughage was grown, and the cattle were kept on full feed for six months or longer. This method became too expensive, so feeding is now conducted upon farms as a means of marketing farm products by converting them into beef, while the manure produced is utilized as a by-product for maintaining fertility.

PICKED UP IN PASSING

In the July Woman's Home Companion a widow tells why she is going to marry at forty-seven. She opens her article with the following somewhat breezy statement of the facts:

"I am forty-seven years old and I have been a widow seventeen years. I have wanted to marry again full fifteen years of my widowhood, but I didn't have the courage to do it till about a month ago. Merrimac couldn't be more shocked if the minister's daughter had eloped with an actor. Almost to a woman my neighbors have said: 'Well, Louise, I suppose you have your reasons, but it does seem strange—at your age—'

"What's the matter with my age? I'm just in the prime of life, stronger than either of my daughters when it comes to housework. There's not a gray hair in my head and my skin is like a girl's. Not that looks count so much, nor that I am vain, but I rather object to their laying me away on a shelf at forty seven, when, if I follow the example of most of my ancestors, I'll probably live till I'm seventy seven—thirty years more."

Charles M. O'Day, the baseball man who has been making Charleroi his home lately tells of an experience he had with a negro porter. He says that he was riding on a "sleeper" toward Indianapolis and just before returning asked the porter to do him a favor. The porter did not seem exactly pleased, but finally did as was requested.

"I was pleased at that, said O'Day," and to demonstrate my pleasure, in addition to tipping him, I drew some neckties from my traveling bag and presented them to him. He was from that moment my best friend.

"On my traveling bag I had a number of posters bearing different emblems and on the end was one 'Gasolene.' The next morning after I had arose and the porter had made up my berth, he approached obsequously. Evidently he had seen the name on the end of the bag.

"'Good marnin,' Mr. Gasolene. Good mahnin,' he said.

Local Boys Will Be Trained In Scout Craft by an Experienced Director During Chautauqua Week

1, Resuscitating the apparently drowned. 2, Mending a St. Bernard's broken leg. 3, Method of placing the injured upon a stretcher

THE value of training boys in scout craft was recently demonstrated during the Ohio floods. The newspaper dispatches told of the excellent work they performed because of this training in rescuing many sufferers who would otherwise have been lost.

During Chautauqua week here an experienced leader of boy scouts will train a band of local lads in self reliance, manhood, good citizenship and scout craft.

Scout craft includes instruction in the first aid to the injured, life saving, tracking, signaling, nature study, camp craft, wood craft, chivalry and patriotism. Many scouts have passed the Red Cross examination and received a national certificate.

The boys live as much as possible out of doors, camping and hiking, being taught how to pitch a tent, make a hut and lean-to, light a fire and cook a meal.

A scout is a good Indian. You cannot lose him. He takes his direction from the sun by day and the stars by night. He knows trees, plants and flowers and the secrets of animals and birds.

CHARLEROI DEFEATS MONESSEN

Timely hitting, good base running and good judgment in taking advantage of all opportunities resulted Saturday afternoon in a score favorable to Charleroi in the Charleroi-Monessen Valley league game. Nine hot innings concluded with the tally-sheet showing 6 to 5.

Monessen tallied the first score in the first inning, and tallied the second run in the second session. In the first their run came on two hits and a base on balls. The second inning was similar, only one of the two hits then was a double. All these things made Monessen players and Monessen fans —of which there were a big number— immensely happy. Their happiness was ill-timed.

Urben's wrecking crew got busy in the second session. Kelly opened the inning by establishing himself in front of one of Gray's benders. Motts flied out. Miller stood up at the plate, looked earnestly at one of Gray's curves and smashed it for a double. Kelly scored. Kuhn hit a single, sending Miller to third. The latter went home a second later on Phillips' out at first.

In the third inning five hits, a sacrifice and a stolen base brought in four runs. Mathers started things going by hitting out a double. Mackey singled him in. Cratty sacrificed. Kelly singled. Mackey came in. Motts hit for two sacks at the plate. Miller secured his base on a fielders choice, forthwith swiped second, and came home on Kuhn's single. These scores were all Charleroi needed to win.

Monessen got two runs in the fourth inning on two hits a passed ball and an error, and one run in the sixth on two singles and a couple of stolen bases. Score:

This is the 1st Authorized Mid-Summer Hoosier Cabinet Sale on the Hoosier $1 Plan

This mid-summer sale is authorized for the first time, because so many Hoosier agents were unable to get Hoosiers for their spring sales, and many more could not get their full allotment. But even now, only a limited number of Hoosier Cabinets can be turned out of our new factory building in time for mid-summer delivery—an average to each sale of less than twenty. So only you who enroll early can count on delivery during the hot months, when you need your Hoosier most.

THE HOOSIER MFG. CO., New Castle, Ind.

Read about these conveniences that made the HOOSIER necessary to over 700,000 women.

(1) Mrs. Christine Frederick's famous "Housekeepers' Food Guide"—on the upper left door—answers the eternal problem: "What shall we have for dinner?"

(2) The Cook-book Holder on the middle upper door holds your cook book securely when not in use. When you are cooking, simply open up the book to the proper page behind the holder. It is on a level with your eye, always clean, never in the way.

There are 40 special conveniences in the NEW HOOSIER—17 are entirely NEW.

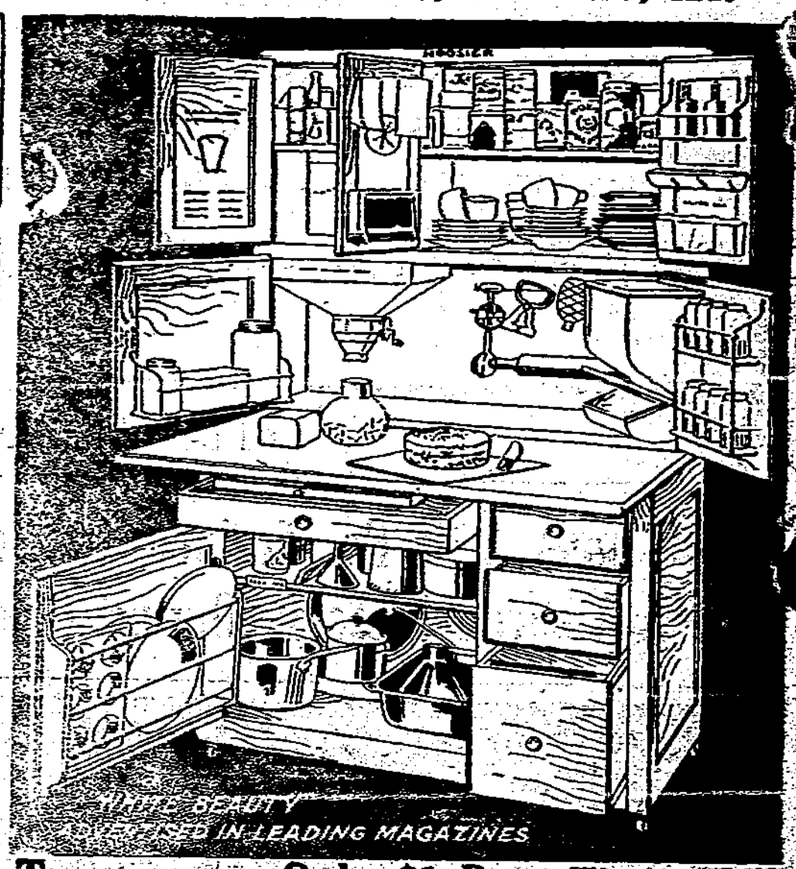
(3) The Hoosier Metal Flour Bin holds fifty pounds. It is low and easy to fill. The sliding glass front enables you to clean the entire bin easily. The inside is entirely of metal, with no corners to hold flour. First flour in is always out first.

(4) The New Shaker Flour Sifter is the most wonderful of all the new Hoosier inventions. It is the only flour sifter ever made on a kitchen cabinet that shakes flour through instead of grinding it through. *It cannot wear out* and cannot grind through any grit or foreign substance that might be in the flour.

OUR WINDOW DISPLAY is the talk of the town—come and see it.

(5) A new feature in the Base Cupboard is a narrow shelf conveniently located for the storage of canned articles. Most women will find this a great convenience as an "emergency shelf." It will save many trips to the cellar or pantry.

TOMORROW YOU may examine all the new features. You incur no obligation. But you should come early. You may be too late to get one on the HOOSIER PLAN if you delay. Come and SEE this remarkable NEW Hoosier tomorrow.



Tomorrow, Only $1 Puts This NEW HOOSIER in Your Home—Don't Wait!

The mid-summer sale terms are:

1. **You may choose any of the new Hoosiers—"White Beauty," or "Oak Interior" at slightly less price.**
2. **$1 puts your Hoosier in your home at once.**
3. **$1 weekly quickly pays for it.**
4. **The low cash price fixed by the factory prevails strictly.**
5. **No interest—no extra fees.**
6. **This sale is under direct supervision of the Hoosier Company.**
7. **Sale is strictly limited to our small summer allotment of new Hoosiers.**
8. **Your money back if you are not delighted with your Hoosier.**

This is your opportunity—if you act quickly—to own this wonderful Hoosier on the most liberal terms ever offered. You may search the whole world and find nothing that will save you so much labor in your kitchen as this new Hoosier.

White Beauty is a wonder of convenience. It combines three roomy cupboards, a large work table and package pantry in one spot so you can sit down at work and save miles of steps.

You have places before you for 400 articles, all at your fingers' ends. You save most of the weary hours other women spend in their kitchens.

This new Hoosier on these terms is the greatest kitchen cabinet bargain you have ever seen. The few we have will be sold in no time at all. Only those women who grasp this opportunity tomorrow can be sure of getting one of these cabinets on the liberal Hoosier plan.

RAILROAD URGING CONTINUAL USE OF SAFETY APPLIANCES

In its endeavor to make employment on its lines as safe as human ingenuity can provide the Pennsylvania Railroad is seeking to make it harder all the time for employes to do those things which its carefully analyzed statistics prove to be the contributing causes of accidents.

The latest step taken in this direction is a general order just issued prohibiting train employes from manipulating the lower handbrakes on freight cars by means of brake clubs. The reason for this was that investigation proved that the careless use of clubs on the lower brakes—or "tunnel" brakes as they are called in railroad parlance—resulted in one employe being killed.

Reports are rendered even to the smallest details of every accident to an employe of the Pennsylvania Railroad. As a result of the very careful analysis which these statistics receive to arrive at the fundamental causes of all accidents, suggestions and orders designed to eliminate the possibility of a recurrence of these causes are being issued constantly by those in charge of the operation of the railroad.

THREE ROADS IN THE COUNTY TO BE RE-SURFACED

The county commissioners have decided to resurface three roads this summer, and the controller has been authorized to advertise for bids, to be received on July 2, at 1 o'clock. Bids will be received for resurfacing with the following materials: Brick, tarvia, Kentucky rock, asphalt, Warrenite, Amiesite and asphalt and concrete.

The roads to be resurfaced are the McClane road, from the bridge to Meadowlands, a distance of one mile; the Dry Run road, from Monongahela to Valley Inn, a distance of 1.75 miles and the Taylorstown road, beginning at the station and extending to the covered bridge over Buffalo creek, a distance of 4,800 feet. These roads all need resurfacing. The commissioners have inspected considerable resurfacing work in Allegheny county, and have found several satisfactory resurface materials.

COAL MEN ANXIOUS FOR RISE TO SEND COAL DOWN RIVER

Six steamers are waiting to start down stream and they will carry an aggregate tow of 2,450,000 bushels of coal to southern points.

Melancholy Women

Women should understand that melancholy, commonly called the "Blues" is in nine times out of ten a pure symptom of some organic derangement which should have attention. For nearly forty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs has been the standard remedy for such conditions, as proved by many testimonials which we are constantly publishing from women who have been restored to health by its use.
